CORE PURPOSE

To make students confident and creative builders of their future by focussing on their holistic development leading to Nation Building.

CORE VALUES

Transparency

Respect for all

Committed

Team Work

**Continuous Learning and
Upgradation**

Dear Students / Parents,

I am very happy to present the Sixth Edition of our Newsletter for the month of November, 2022 in front of you. This month was full of activities. The month started with University examination on offline mode which was successfully conducted by our college. I am pleased to inform you that college is successful in getting 100% admissions of DSM. The first sessions of DSM and M.A. in Education was conducted in this month. Children's Day was celebrated by conducting various competitions for the students of Gurukrupa Secondary and Higher Secondary School. Various orientations like How to write Research Proposal, Orientation of NET AND SET Examination was conducted for students. Field visit is also conducted by Science Club. I thank you my dear students and all faculty members for their support for conducting such interactive activities.

These are some of the glimpses & Short Reports of the activities we have taken during the month of November, 2022. Expecting same co-operation from all of you in future.

Dr. Vidyullata Kolhe

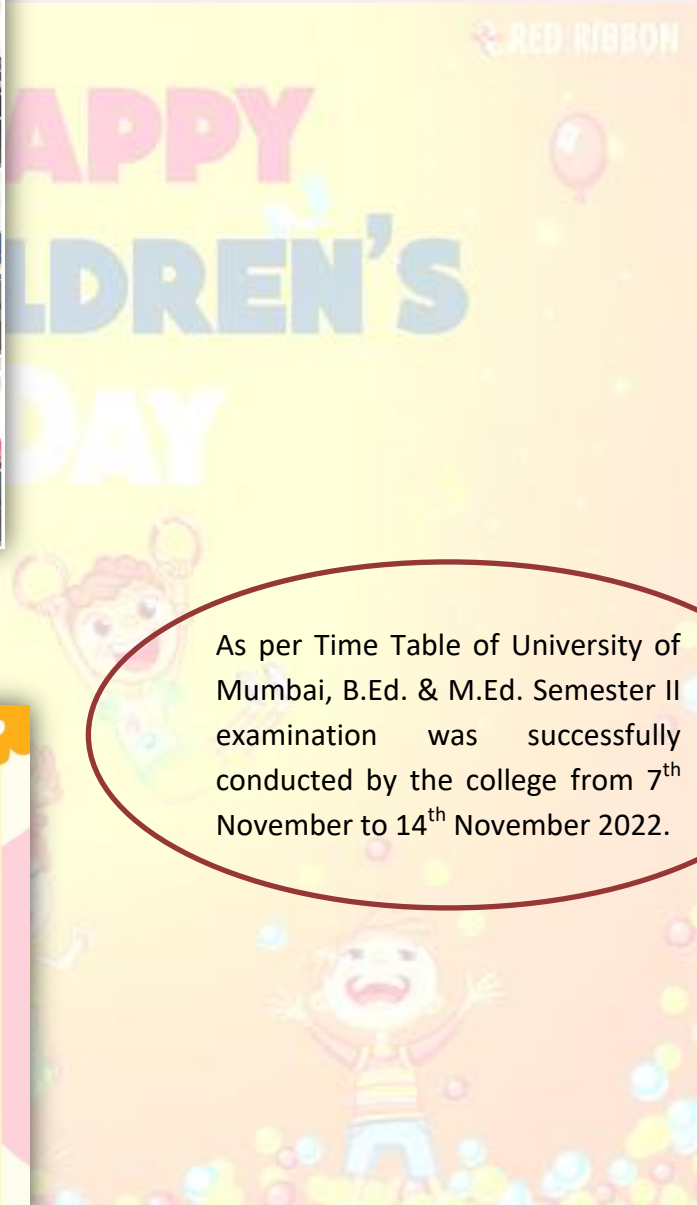

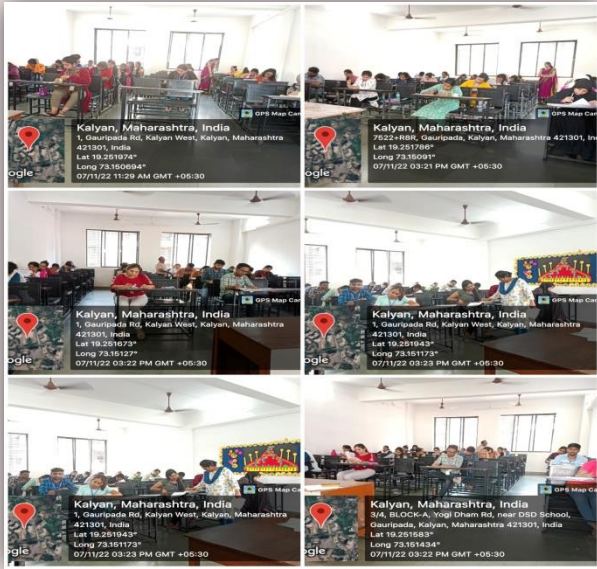

**Principal
Gurukrupa College of Education & Research.**

**FIRST SESSION OF DSM A.Y2022-23
6/11/2022**

All of you know that GCER is authorized center of DSM course of YCMOU. We are proud to announce that this year also we are having 122 admissions for this course. The first session of DSM A.Y. 2022-23 was conducted on 6/11/2022. Session started with Vidyapith Geet of YCMOU & College prayer. Each participant introduced themselves and all students were welcomed with Rose. Brief orientation of DSM was given by Dr. Vidyullata Kolhe. The groups for action research were formed on this sessions. Group leaders were also selected. The session ended with vote of thanks.

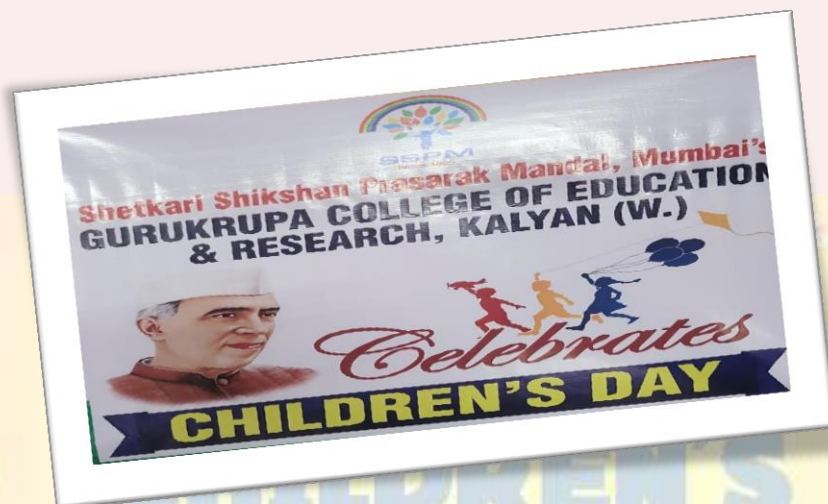

UNIVERSITY EXAMINATION OF B.ED. & M.ED. Sem. II
7/11/2022 to 14/11/2022

As per Time Table of University of Mumbai, B.Ed. & M.Ed. Semester II examination was successfully conducted by the college from 7th November to 14th November 2022.

CHILDREN'S DAY CELEBRATION 12/11/2022

Children's Day is celebrated across India to raise awareness about the rights, education & welfare of children. It is celebrated on 14th November every year on the birthday of the Pandit Nehru. GCER always tries to come up with innovative ideas for celebrating days. This year also GCER came up with a unique idea of celebrating Children's Day by organizing an Essay Competition and various fun games for Gurukrupa Secondary and Higher Secondary and D.S.D. Primary School Children. From the Essay Competition, students can explore their thoughts, and from the games, students had fun also. All students enjoyed this movement. Winners were appreciated with prizes.

**First Session of M.A. Education A.Y.2022-23
13/11/2022**

GCGER is running M.A. Education of YCMOU. The first session of new batch A.Y. 2022-23 was conducted on 13/11/2022. Orientation of M.A Education was given by Dr. Vidyullata Kolhe. Students were welcomed by giving roses. Research Proposal was also explained to them.

**Lectures taken by Faculty Members on Second Year
M.A Education
13/11/2022**

On 13/11/2022 Lectures were taken by Mrs. Archana Bhole and Dr. Anjali Kirkinde on Second Year M.A. Education.

**Orientation of B.Ed. & M.Ed. Semester III
14/11/2022**

Orientation of B.Ed. & M.Ed. semester III was done on 14/11/2022 by Mrs. Archana Bhopale and Dr. Anjali Kirkinde. Detail information about subjects for semester III was given to the students. Information about optional subjects was given to M.Ed. students and optional subjects were selected by the M.Ed. students.

Open Book Test 19/11/2022

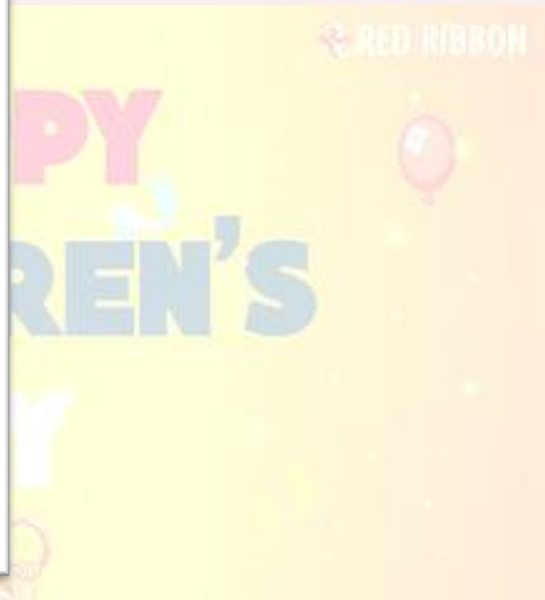

Open book examination is there to improve students' ability to process the information learnt. It tests how they can apply it to new context, how they improve it, etc. Keeping all these things in mind College conducted open book Test for M.Ed. students

**4 Weeks M.Ed. Internship
From 21/11/2022 onwards**

As per the syllabus of University of Mumbai, M.Ed. Students have to undergo 4 week's Internship Program. From 21/11/2022 Internship of our M.Ed. students on various B.Ed. colleges started.

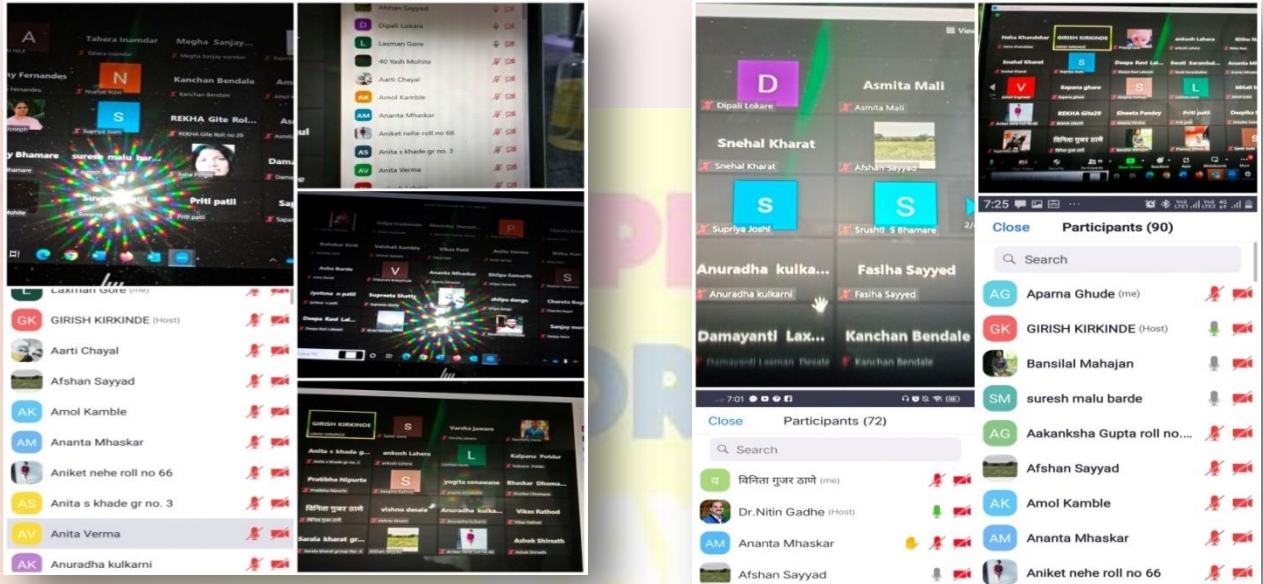

**Visit of Dr. Nishandar Madam for Extension Work
23/11/2022**

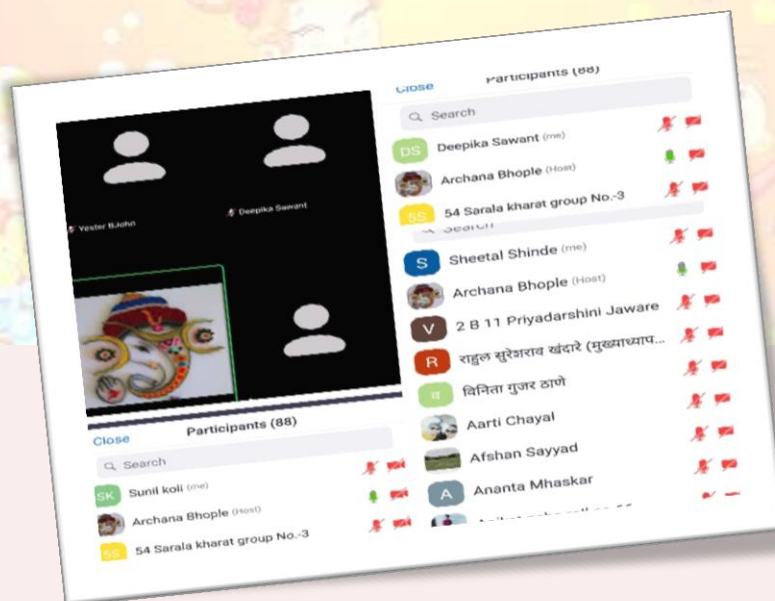

Co-ordinator of Department of Lifelong Learning and Extension, University of Mumbai, Dr. Vrunda Nishandar visited college to guide the students.

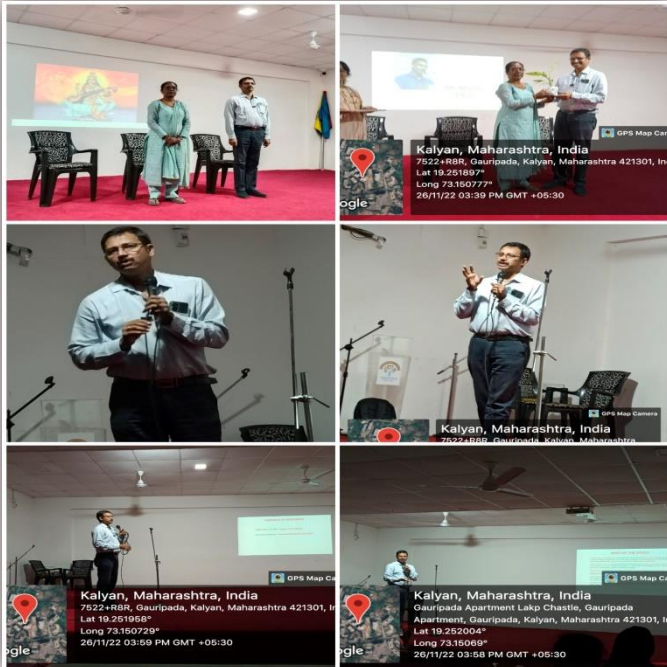

D.S.M. Lectures by Faculty Members 21/11/2022 to 28/11/2022

D.S.M. Lectures were taken by our Faculty members.

Session on “How to write Research Proposal” 26/11/2022

A research proposal is a simply a structured, formal document that explains what you plan to research, why it's worth researching and how you plan to investigate it. The purpose of the research proposal is to convince your research supervisor, committee or university that your research is suitable and manageable. As M.Ed. students have to undergo dissertation work in semester III & IV, keeping in mind the importance of Research proposal, Research Cell of our college conducted session on “How to write research proposal?” The resource person was Mr. Manoj Pillai, Principal of Marthoma Vidyapeeth. In the session he briefly explained the importance of research proposal and which points should be taken into consideration while writing research proposal. Students asked their queries which were nicely solved by him. The session was really very interactive and informative.

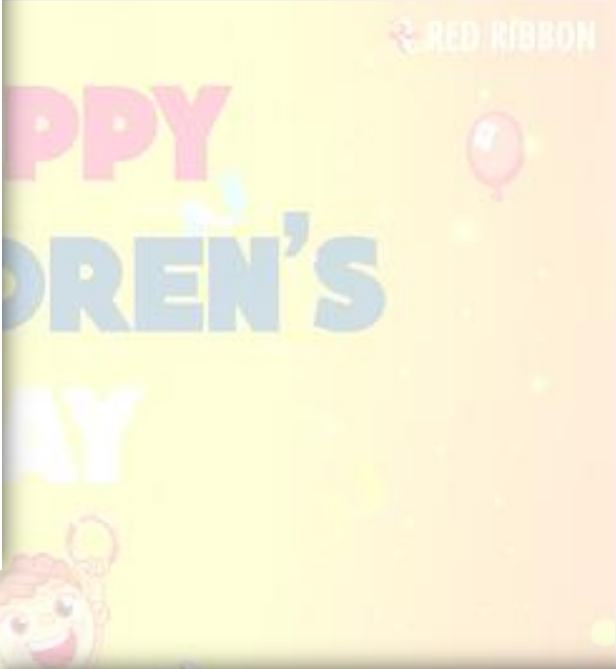

Orientation of NET/SET Examination 26/11/2022

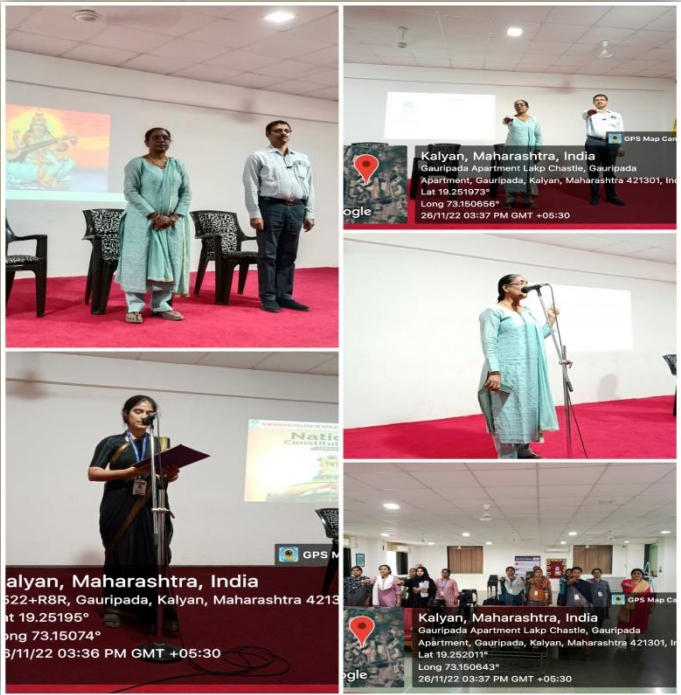

To explain the entire process of the exam and to get a comprehensive understanding of the exam process to the students, college conducted orientation session on **NET AND SET** Examinations which was taken by expert co-ordinator of NET JRF Gurukul Mrs. Sangita Khare madam. She explained entire process and syllabus of NET and SET examination to the students. She also discussed tricks to solve the questions within a short period with the students which were really informative. The session was very interactive. Students opened up with their queries and doubts related to these examinations.

Constitution Day 26/11/2022

The Constitution Day - or 'Samvidhan Divas' - is celebrated on November 26 to commemorate the adoption of the Constitution of India. On this day, the Constituent Assembly of India adopted the Constitution of India, which came into effect on 26th January 1950. To create awareness among the students about the Constitution and its values, students and faculty members of college took pledge by reading of preamble.

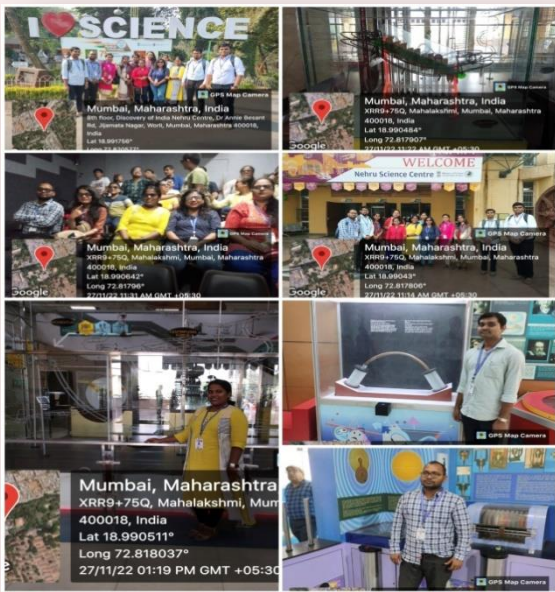

**FDP Attended by Faculty Members
26/11/2022**

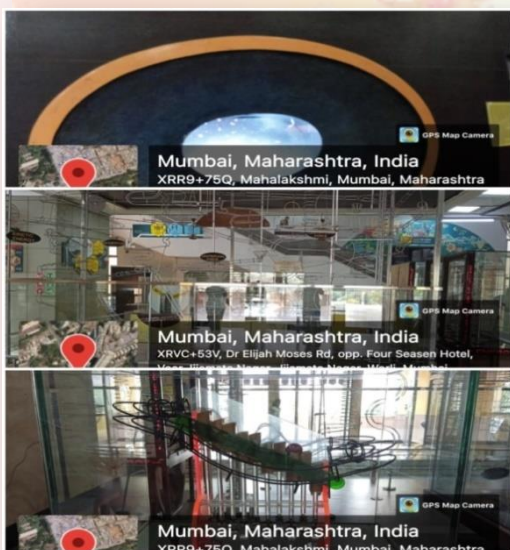

Our faculty members, Mrs. Archana Bhopale, Dr. Anjali Kirkinde, Mrs. Mrunali Pansare attended one day State Level Faculty Development Program on “National Education Policy-2020” which was organized by IQAC Cell of Ashoka International Centre for Educational Studies and Research, Nashik on 26th November, 2022.

Field Visit to Nehru Science Centre 27/11/2022

Science Club of our college conducted field visit to Nehru Science Centre on 27/11/2022 as a part of task. They watched a show as well as visited various experiments.

**Training attended by Faculty Member
24/11/2022 to 26/11/2022**

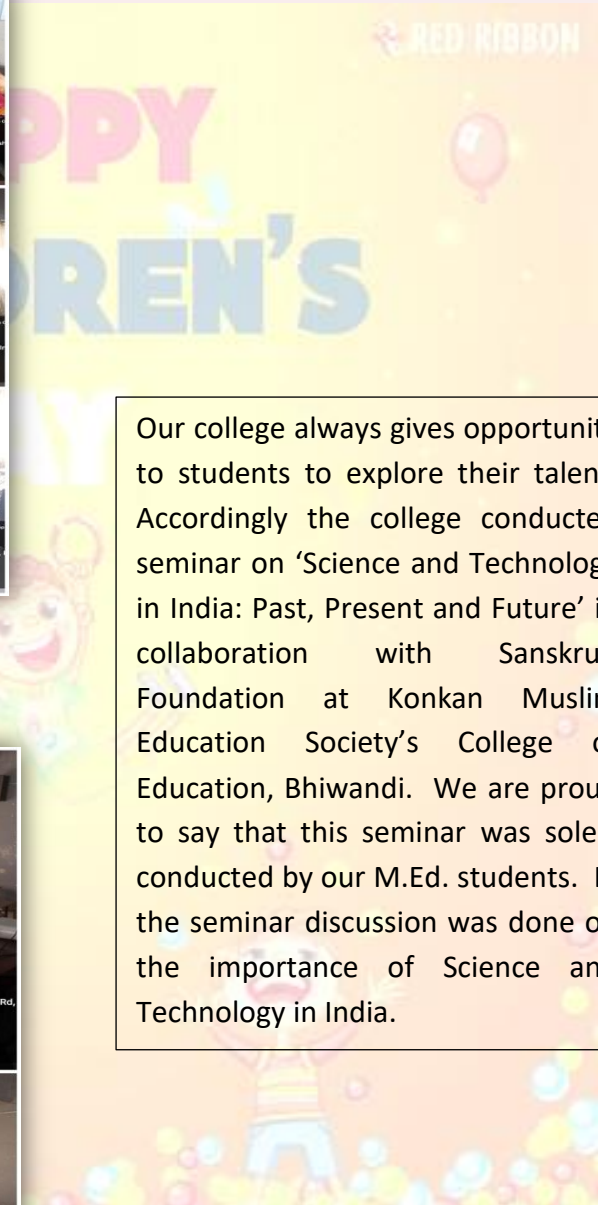

Our college is running various courses of YCMOU like DSM and M.A. in Education. The training of M.A. in Education was arranged by YCMOU from 24th November to 26th November, 2022 which was attended by Dr. Nitin Gadhe.

Second Training Program of Department of Lifelong Learning and Extension
29/11/2022

The Second Training Program of Department of Lifelong Learning and Extension was conducted at VPM's B.N. Bandodkar College of Science, Thane. This Training Program was attended by Dr. Nitin Gadhe and two student managers, Khushbu Choube and Pranali Valunke.

Seminar on Science and Technology in India: Past, Present and Future 30/11/2022

Our college always gives opportunity to students to explore their talent. Accordingly the college conducted seminar on 'Science and Technology in India: Past, Present and Future' in collaboration with Sanskruti Foundation at Konkan Muslim Education Society's College of Education, Bhiwandi. We are proud to say that this seminar was solely conducted by our M.Ed. students. In the seminar discussion was done on the importance of Science and Technology in India.

Birthday Celebration of Faculty Member

As per practice of our college all faculty members celebrated birthday of Mrs. Mrunali Pansare on 12th November, 2022 by giving her plant as a token of love.

Guru Nanak Dev's 5 teachings that will change the way you look at life

BY: Nikita Shevde
S.Y.M.Ed.

One of the most celebrated and important Sikh gurus and the founder of Sikhism, Guru Nanak Dev is highly revered by the Sikh community. This is one of the most sacred festivals in Sikhism, or Sikhi. The festivities in the Sikh religion revolve around the anniversaries of the 10 Sikh Gurus. The most famous teachings attributed to Guru Nanak are that there is only one God, and that all human beings can have direct access to God with no need of rituals or priests. His most radical social teachings denounced the caste system and taught that everyone is equal, regardless of caste or gender.

Here are 5 of his many teachings that will change your perspective towards life:

1. Vaand Chhako: Sharing whatever God has given you with others and helping those who are in need is what Sri Guru Nanak Dev Ji preached all his life. This is one of the principles of Sikhism. He said,

**“With the grace of the Lord, whatever you have received,
Share it with the needy and then consume.”**

2. Kirat Karo: Means, make a living honestly. One should not exploit others to enjoy self-happiness. Earning without fraud and working diligently is what he preached

3. Naam Japo: Chant the name of 'True God'. Sri Guru Nanak Dev emphasized meditating on God's name to gain control over five evils- **kama, krodh, lobh, moh, ahankar** means lust, anger, greed, attachment and ego.

4. Sarbat daa bhalaa: Ask Lord for everyone's happiness. Sri Guru Nanak dev emphasized the concept of universal brotherhood. He said that despite religion, caste, and gender, everyone should seek well for others and only then one can have that goodness back in return. At the end of daily Ardaas prayer, it is said, "Nanak Naam Chardi Kala Tere Bhane Sarbat da bhala", which means "Nanak with your name and blessings, may everyone in the world peace.

5. Speak the truth without any fear: Sri Guru Nanak Dev said to always speak the truth without any fear. He said, getting victory by suppressing falsehood is temporary and standing firmly by truth is permanent. Sticking to the truth is also one of the 'hukums' (orders) of the Guru. Many of Sri Guru Nanak's shabads (hymns), which form a part of the Sri Guru Granth Sahib, reflect clearly how the sight of God and his love itself is supreme.

PANDIT JAWAHARLAL NEHRU THOUGHT ON EDUCATION

Archana Bhople
Asst. Professor

Jawahar Lal Nehru once said, "The object of education was to produce a desire to serve the community as a whole and to apply the knowledge gained not only for personal but for public welfare".

Education, according to Nehru had economic as well as social objectives. It should culturally improve a man and also enable him to generate wealth in society. He said "Unless you produce the amount you consume you are a burden to society". Nehru believed India's massive unemployment crisis could be solved with basic education. This gave people the capacity "to coordinate manual labour with mental and intellectual ability".

Technology and industry are the primary requirements to battle poverty and unemployment. As such, Nehru, who introduced the concept of five-year plans for the overall development of India, laid great importance upon scientific education. This was done so that the nation could produce a workforce, which was skilled enough to implement the plans. He also established national science laboratories in core areas of science all over India and started the IITs, which together helped take India to great heights in technical development. However, Nehru also warned that "we should accept technology without leaving basic values which are the essence of civilized man.

Nehru's main objective via education was to do away with the narrow religious and communalistic views and promote a scientific and humanitarian mindset. Being Western-educated himself, he believed English education helped broaden India's horizons and created a "revolt against some customs and aspects of Indian life, and a growing demand for political reform". However, he also believed that regional languages ought to be the primary medium for the success of educational programs.

Nehru is considered the architect of the modern educational system in India as he formulated the educational policy on becoming Independent India's first Prime Minister. Impressed by the scientific progress of the West, he visualized western aims and means for primary, secondary, and university levels of education. This may be called his weakness, but it was also the strength behind his educational policy. Nehru's contribution to the scientific development of the country cannot be ignored as it helped India to become one of the top five nations in the world to boast of an all-round development.
